Title: Full course name
Grade : Final letter grade
Credits : Number of credits assigned to the course
G-Pts (Grade Points): Grade Points earned at each course are determined by multiplying course credits by the appropriate point value. Grade Points are only calculated for credit courses.
For example a C equals a 2.00 point value. To calculate G-Pts, multiply the 2.00 point value by the number of course credits.
A-Crds (Attempted Credits) : Attempted Credits include the total number of course credits taken excluding dropped courses.
E-Crds (Earned Credits): Earned Credits include the total number of course credits successfully completed.
GP-Crds (Grade Point Credit) : Grade Point Credits represent the number of credits that are calculated into the GPA. This includes all for credit courses except Pass/Fail courses.
GPA (Grade Point Average) : Grade Point Average is calculated by dividing the G-Pts by the GP-Crds (G-Pts / GP-Crds).
